Divider
1 pc

3.

Passenger Side Foam
Divider
1 pc

4.

Bushing
3 pcs

5.

Body Clip Nut
3 pcs

6.

Flat Washer
3 pcs

7.

Buttonhead Bolt
3 pcs

TOOLS FOR EASY INSTALLATION:

- 3/16" Allen Wrench
- Deadblow/Rubber Mallet
- Marker or Grease Pencil (optional)
- Utility Knife (optional)

PLEASE READ: Rear cabin area must be free of debris and items prior to installation of Underseat Storage Box.

UNDERSEAT STORAGE BOX INSTALLATION

Lift the rear seat for installation of Underseat Storage Box.

Slide 3 supplied Body Clip Nuts over square holes in seat support brackets indicated by arrows.

Use a deadblow/rubber hammer to align hole in clip with square hole.

Place the underseat Storage Box on the floor, aligning holes in Box with clips installed in Steps 2-3.

Install a supplied Flat Washer onto each supplied Buttonhead Bolt.

Slide a supplied Bushing between Underseat Storage Box and Clip.

Holding bushing in place, insert Buttonhead Bolt through hole in Underseat Storage box and Bushing and thread into clip. Use a 3/16" Allen Wrench to tighten.

Install Passenger Side Foam Divider into molded-in slot in Underseat Storage Box.

Install Driver Side Foam Divider into molded-in slot in Underseat Storage Box.

Complete Underseat Storage Box installation.

CUTTING DIVIDERS TO STORE LONG ITEMS

If you want to store long items lengthwise in the Underseat Storage Box, lay the item in the Box (over the top of the dividers) in the position you would like to store it in. Alternately, you may remove the dividers and skip the next steps, however, items may shift in transit.

Use a marker or grease pencil to trace the width of the item on each Foam Divider. Remove item and trace the depth at which you would like the item to rest. NOTE: Cutouts should be fairly snug.

Use a utility knife to carefully cut the corresponding section out of each Foam Divider.

Lay long items in Underseat Storage Box as shown, pressing into the cutouts in the foam.
